# Report of the Superintendent of Schools

---

To the School Board and Citizens of Wakefield:

Ten schools have been maintained in the town this year, the school at South Wakefield being reopened soon after the others commenced. There was a delay of a week in opening the school at Wakefield Corner, and after a session of a week there was a vacancy, causing a delay of another week.

Two of the schools are now very small. There are only four pupils in regular attendance at South Wakefield, and only seven at Woodman. Running schools of this kind is an economic and educational waste.

It is very difficult to get satisfactory teachers to remain, and very little good results. We have already had two teachers at Woodman this year, and the present teacher has resigned to take effect at the end of the winter term. The pupils from here can be very easily carried to East Wakefield, which has one of the best equipped and most attractive country schools in the section.

No radical changes have been made during the year. The schools have lacked courses in music and drawing. We are fortunate in having regular musical instruction in the Sanbornville primary school. It might be possible to combine with some other town in employing a music supervisor. Here is a point against running small isolated schools. It would not be practical to have special teachers go several miles to reach four or five pupils. The more schools are concentrated, the more advantages can be given them. A course in drawing has been introduced during the year, which we hope will prove helpful and not too exacting for the regular teachers.

Considerable basket work has been done. We want more and more of the industrial subjects. A few books of help in teaching and managing the schools have been supplied. Four sets of reference books have been purchased. It has been necessary to figure very carefully to keep within the appropriation. The appropriation was considerable smaller than in either of the other towns of the district.

The equalized valuation of the town will be the same as last year: \$1,264,758. In order to receive state aid, it is necessary to raise at least \$4.50 on a thousand for school purposes, or \$5,691.41.

During the past year state aid has been received as follows:

For average attendance.....	\$198 00
For approved teachers.....	162 00
High school rebate.....	46 80

---

\$406 80

We have a larger number of approved teachers this year. An approved teacher is one who is a graduate of a of a normal school or who holds a state certificate. For each such teacher the town draws \$2 per week from the state. Young people desirous of teaching, will find a wide field open if they will qualify for their work. It is impossible to get approved teachers to go even half way round. There is a lot of room for the ambitious, and the demand is likely to make salaries higher.

There have been several applications for transportation which could not be granted for lack of funds. The town of Wakefield is very liberal in the matter of transportation and the bill is quite a heavy one. Nevertheless all the children should have a chance to attend school, and when schools are closed it is right to provide transportation, when their parents do not have convenient ways to get them to school. Whether parents should be paid

for carrying their own children to school is very questionable and perhaps an unjust burden on the people who have provided everything else for them.

The roll of perfect attendance follows. It is very small, much smaller than it ought to be. The smaller schools especially suffer from poor attendance. The single school of West Ossipee, with a membership of twenty-three, has had more perfect in attendance by a wide margin since the opening of schools in September than the whole town of Wakefield. The school at West Milton had an attendance during the fall term of 100%.

In closing, I wish to thank school board, teachers and citizens for kind cooperation.

Respectfully submitted,

CLARENCE E. MICHELS.
